The other way you can buy and sell your crypto currencies is via a Direct Trade, the main benefit of is such an exchange is that it is the seller that sets exchange rate for their transaction as there is no fixed market price associated with using such an exchange, and as such it may be possible for a seller and for that matter a buyer to put together an appealing exchange rate for all .

The whole idea of algorithmic trading is to convert your trading rules into an executable computer code which can be automatically (or semi-automatically) executed to place buy-sell orders. An algorithmic trading platform makes this whole process seamless by offering several readymade features and services.
