To summarize, the best crypto apps for beginners are Coinbase and eToro. The best for more experienced users are Binance, Kraken, and Bybit. For earning interest in cryptocurrencies, the best app is BlockFi, while Kraken and Binance are great options for staking.

Not all apps are free. The best ones are rarely free. You need to look at the two types of fees when comparing cryptocurrency apps. First, the monthly subscription of the app. Second, transaction fees and taxes. Features. Dont ignore app features such as mobile app, ease-of-use, customer support, etc. If an app requires intensive training before you can use it, there isnt any need to go for it. Legality. This one is a serious concern.
