Zignaly is one of the self-service crypto automated trading systems that give you trading opportunities to fully

automate your trades as per trading rules using their Artificial Intelligence solution according to the market conditions. Their goal is to help active traders maximize their profits and minimize the risk by creating a smart, transparent, and trustworthy crypto marketplace for the stock price and stock exchanges.

Centralized crypto is not immutable (transactions can be reversed, look at ETC), it's not trustless and it's not censorship resistant which are the most important benefits of a decentralized blockchain.
