Before transferring all of my coin over I wanted to do a test. I transferred .05 BTC from Coinbase to my Trezor and with the fee, coinbase shows .0505988 being transferred. It took about 40 minutes for the confirmation, but the .05 BTC now shows up in my Trezor as confirmed. When I click on the transaction details from the trezor wallet and it takes me to the btc-bitcoire1.trezor.io website, the transaction FEE at the bottom of that page says the fee was 0.02066021 BTC though.

Coinbase lied to me when saying they got request from me but they could not to prove it so far. For your information: if someone is stealing your money, he will never send any request because to get approval he must verify his location, 2FA phone, send a link for a LinkedIn account, send a Bank Statement and it takes about 2-4 days. I asked Coinbase send me all verifications for that request, but they could not provide me with any.
