Decentralized exchange or DEX is a cryptocurrency exchange market or platform that operates independently without any central authority or third-party intervention for holding or transfer of customers funds. Peer to peer or P2P transactions occur between interested parties directly through an exchange of crypto assets or cryptocurrencies. All these transactions take place through a decentralized escrow account and smart contracts.

LONG-SHORT RATIO. Great for BTC and crypto environment. Absolute values of long and short positions can be misleading as since time passes new market participants join the crypto space. Also, Long tend to be long time holders, while shorters tend to be short time shorter. It is the ratio of the two levels (no matter what they are) that is a better indicator than the two of them taken separately.
