Iv done it. Linked my Coinbase to Ethermine and have safely mined to it. Coinbase says not to do it because small transactions can overload their network but I dont think its much of a problem if your not getting 30 payouts a day. They do change addresses but every address is linked back to your account so it doesnt matter if it changes.

Mining is the process that Bitcoin and several other cryptocurrencies use to generate new coins and verify new transactions. It involves vast, decentralized networks of computers around the world that verify and secure blockchains the virtual ledgers that document cryptocurrency transactions. In return for contributing their processing power, computers on the network are rewarded with new coins.
