When you connect your financial data to an app or service, they pay Plaid. For example, when you add a bank account to Square Cash, they pay us a fee. Plaid is free for everyone who uses a Plaid-powered app, allowing you to securely connect your bank account to the apps you want in just a few seconds. Meet companies powered by Plaid

When you enter your bank credentials, you are actually doing so on a form provided by a third-party bank data aggregator called Plaid. Its a system used by most personal finance apps, like Venmo, Robinhood and Acorns. Plaid, in turn, is trusted by a long list of banks and credit unions. HiCharlie never sees your bank credentials; Plaid does.

By purchasing a mutual fund or ETF you are essentially buying a basket of securities that holds an array of stocks and bonds as opposed to purchasing just one or a few. ETFs trade multiple times per day, mutual funds just once. The main difference between an ETF and a mutual fund is that ETFs trade throughout the day on the market, like a stock.
