KIN has one major advantage over all other cryptocurrency projects: its parent company KIK has a huge active user group already in place, which is a huge plus for the coin in terms of usage. There are several social media blockchain startups, but none of them have large user bases, or even a working product at this time.

Two-factor authentication (2FA), also known as 2-step verification, is a security layer in addition to your username and password. With 2FA enabled on your account, you will have to provide your password (first "factor") and your 2FA code (second "factor") when signing in to your account. 2FA codes are associated with a specific device (such as .
