Libra coin commonly referred to as Facebooks cryptocurrency was born in Californias Silicon Valley, back in 2019. The project aimed to become a digital currency platform used worldwide, which would bring significant changes to the financial system we already use.

Connect all players on a single device with game controllers, or connect together across multiple devices (or any mix that suits you). Unlock Crossy Chicken and friends. Dress up in silly hats. With procedurally generated levels and variations, your tower run will be different every time!

The Libra cryptocurrency is part of one of Facebooks largest blockchain projects. The goal is to start offering users a digital asset to use on Facebooks main platforms (i.e. Instagram, Facebook and WhatsApp). This virtual currency could work on top of Facebooks permissioned blockchain.
