Binance is the best exchange that I have found so far, easy to use, low fees and lots of great opportunities to earn extra staking and trading. They have a huge amount of crypto currencies on offer too. Unfortunately because of regulations you are unable to cash out into your bank account. I can't wait for them to sort this issue out.

Very bad experience with these guys and causing a lot of anxiety. i have been using binance for three years. Depositing to this exchange is easy, trying to withdraw all your funds is another story. Two months of jumping through hoops for their support team and they still won't unblock my account.

Mina protocol is a blockchain with a focus on cryptocurrency use-cases. Its the first cryptocurrency protocol to run on a succinct blockchain. Compared to traditional cryptocurrency blockchains like Ethereum and Bitcoin, Mina has a tiny size. Bitcoin, for example, needs more than 300GB of storage to store the blocks.

In June of 2017, O(1) Labs kicked off an ambitious new open source project to design a layer one protocol that could deliver on the original promise of blockchain true decentralization, scale and security. Rather than apply brute computing force, Mina offers an elegant solution using advanced cryptography and recursive zk-SNARKs.
