By Bybit Learn September 2, 2021 In Crypto KYC, or Know Your Customer, is a set of procedures that require financial institutions and crypto exchanges to verify the identity of their customers. While traditional financial institutions have adopted KYC rules, crypto exchanges need to catch up.

Bybit has implemented KYC on several users now since mid-January it seems. While they claim NOT to have KYC, a simple search here on Reddit and elsewhere will show that their claim to not have KYC is false. Highly suggest withdrawing funds so you are not the next person to experience their "no KYC" policy. 1 level 2
