How to set up Personal Capital to track your crypto investments

CFD trading is a method that enables individuals to trade and invest in an asset by engaging in a contract between themselves and a broker, instead of acquiring the asset directly. The trader and the broker agree between themselves to replicate market conditions and settle the difference between themselves when the position closes.

The good thing about crypto trading is that you are not required to maintain a required minimum amount of deposit in your wallet. The transaction fee, more often than not, is deducted as a percentage of the amount of your initial capital. This is why you do not have to be bothered by the investment money required in crypto trading.
