Blockchair is the first blockchain explorer which incorporates a multitude of different blockchains into one search engine. Now, we are striving to make blockchain data understandable and accessible for a wide and varied audience, interested in both blockchain and crypto, while maintaining and securing the privacy of our users as a paramount when developing products.

BlockBar is a search engine platform that can help one track transactions for asset management purposes. It helps users track their crypto assets across exchanges, wallets, and currencies. Even more, it includes a cryptoworld directory that lists various projects. Thus, rather than using official explorers by individual cryptocurrencies, users can use BlockBar to search for data in one place.

CSE (Crypto Search Engine) It allows you to save sensitive data and files in the Cloud. Secure internal and external file sharing across platforms and a completely end-to-end encryption. Centralized administration for enterprise management for a fully control of the solution.
