

Since the first release of TradingView Desktop, we have received many requests from users for a version catering to Apple computers with M1 chips. So we were excited to announce today a brand new version of TradingView Desktop for Mac that adds support for the Apple M1 in addition to Intel architecture. Apple has done a good job of ensuring app compatibility on its new platform, but nonetheless, a natively supported app on the new Apple silicon processors will be more stable and offer better .
