Breeding two of your own cats together costs a flat rate of 0.04 ETH plus the transaction fee. Breeding with another player's Kitty costs the siring price set by that player, plus the 0.04 ETH breeding charge and the transaction fee. So, since players set the prices for siring and selling, players themselves largely determine the value of a Kitty.

The opportunity to become the dominant social network, social media blockchain rather, is so huge that there are many others vying for that crown. The safest strategy of all would be to get a small allocation to a few different social media blockchains so that you've a higher chance of having a position in whichever one or group of networks wins out.
