With every buy and sell there is a 6% Tax. This 6% tax (on entry and exit) helps to manage the total supply so that the ratio of BNB to Surge always stays in favor of BNB. This is what allows the price to always go up with every transaction. All time highs are being made daily and the math speaks for itself!

The good thing about crypto trading is that you are not required to maintain a required minimum amount of deposit in your wallet. The transaction fee, more often than not, is deducted as a percentage of the amount of your initial capital. This is why you do not have to be bothered by the investment money required in crypto trading.
