In order to connect your bot to Coinbase Pro, you need an API key. Think of an API key as a bridge between Cryptohopper and the exchange, which allows your bot to do things like place automated orders and read your balance for its calculations. Step one. Go to the exchange website, and create an account if you haven't already. Step two. After you have logged in successfully, click on your name in the top right corner, and click "API".

A crypto screener like Cryptolume is a tool that can be used to scan for trading patterns that you typically use. With a crypto screener you can then find all coins which currently are outlaying that pattern on any given exchange that is supported and then you'll be able to find information a lot faster than other people.
