Market capitalization (or market cap) is the total dollar value of all the shares of a company's stock or, in the case of Bitcoin or another cryptocurrency, of all the coins that have been mined. In crypto, market cap is calculated by multiplying the total number of coins that have been mined by the price of a single coin at any given time.

The **easiest** and most common approach for beginning investors to get exposure to stocks is through the stock market. Investing in stocks is simply purchasing small shares of ownership in a publicly-traded company. By investing in these modest shares, you're hoping that the firm will grow and prosper in the long run, which is the aim.
