Sushi coin is linked to SushiSwap, which is a decentralised exchange, or DEX for short. This is like a regular currency exchange, except that it allows people to exchange crypto via a smart contract (a computer program that automatically executes sales and other agreements when the right conditions are met), using the Ethereum blockchain.

SushiSwap (SUSHI) is an example of an automated market maker (AMM). An increasingly popular tool among cryptocurrency users, AMMs are decentralized exchanges which use smart contracts to create markets for any given pair of tokens. SushiSwap launched in September 2020 as a fork of Uniswap, the AMM which has become synonymous with the decentralized finance (DeFi) movement and associated trading boom in DeFi tokens.
