Biconomy This is a multi-chain transaction infrastructure for next-generation Web 3.0 applications. API Plug & Play (connected and work / play) in Biconomy allow decentralized applications (dApps) become accessible to all, regardless of their knowledge and experience in the field of cryptography.

Opposed to a custodial exchange that requires control of your funds, a non-custodial exchange allows you to trade without handing over your funds to a third-party and the ability to maintain control over your private keys. If you are the only person with access to your private keys, only you can choose what happens with your funds, and this is one of the reasons non-custodial exchanges can be extremely secure to use.
