Coinbase Custody Trust Company will operate as a standalone, independently-capitalized business to Coinbase Inc. and will be held to the same compliance, security and capital requirements as traditional fiduciary custodial businesses like the DTC. This means customers can trust that the company has met the rigorous banking standards of NYDFS regarding capitalization, anti-money laundering procedures, confidentiality, security and storage.

KIN has one major advantage over all other cryptocurrency projects: its parent company KIK has a huge active user group already in place, which is a huge plus for the coin in terms of usage. There are several social media blockchain startups, but none of them have large user bases, or even a working product at this time.

Kin is migrating to the new kin blockchain, which is a fork of the Stellar blockchain and is based on a technology different from that of the existing Ethereum-based Kin. Kin will be enabling all ERC20 Kin token holders to swap their tokens for the new Kin Coin, which will be native to the Kin blockchain.
