All my instant SEPA took like a minute, but limited to 2k EUR per day (maybe just my bank). Above, it switches to non-instant SEPA, which take a few days. I had better results (no need to reach binance support) whenever I didn't append anything to the reference code. Can't tell if related to weekends or not. 2.

I went through FTX Exchange to do a SEPA withdrawal, worked fine, though they don't have instant transfer like binance so expect it to take 2-3 days to clear into your account. Have to complete KYC, of course. To move your funds they support BUSD in bep2 version so thats a cheap way to withdraw from binance and deposit into FTX. Recommend!
