Coinbase will be a very volatile stock, since most of its revenue is collected from trading fees. Due to the volatility that this stock will see, I believe investors should properly allocate how.

I understand that many will pause and treat this post with derision upon reading the title. However, the more I read about Hydra, the more it seems that the team is trying to reach a compromise and make it work as opposed to working with the best scaling solution. I recently made a post referencing a comment thread/discussion between an ethereum zk-rollups supporter and the cardano community .
