

The wallet you get with a basic account is also a Coinbase wallet, even though it is not called that. That is de facto because you get a wallet with the basic account whether or not you ever get the app. If you don't get the app, then the only "coinbase wallet" you have is the one on coinbase.com. This differentiation is bullshit.

Since it is a government-issued currency that has no inherent value, the source of the value of fiat currency is that fiat currency owners believe that currency can continue to maintain purchasing power.
