Once the funds have settled, log into your online account with your brokerage. Select the stock you want to trade, pick an order type, and place the order. After placing the order, watch to make sure it executes. If you're using market orders, it should execute immediately. If you're using limit orders, your order might not execute right away.

Your long-term crypto investment involves maintaining it for a period based on your investing goals. Typically, long-term investors hold their investments for several years or decades to grow their returns. So, if you believe blockchain-based technology will explode in the future, investing in crypto for the long term can be a great option.

Online trading is quick and easy, but online investing takes time. With the click of a mouse, you can buy and sell stocks from one of the many online brokers offering low-cost trades. Although online trading saves investors time and money, it does not take the homework out of making investment decisions. You may be able to make a fast trade, but making wise investment decisions takes time.
