Binance grid trading is now live, and users can customize and set grid parameters, to determine the upper and lower limits of the grid along with the number of grids. Once the grid is created, it needs to be activated with a single click. With activation, the system will automatically sell and buy orders at the predefined price. Lets see how:

Yes, you can now trade stocks and ETFs for free with most online brokers. This formerly was not the case; a pricing war in 2019 led to full-service brokerages cutting their commissions to \$0 to compete with free trading platforms such as Robinhood. What are the best free stock trading apps? Most online brokers now offer commission-free stock trading.

What Is Binance Grid Trading? Binance is a cryptocurrency trading platform, it supports a range of popular cryptocurrencies along with a wallet to store your funds. Grid trading provides buying and selling of futures contracts automatically. You wont have much work to do as the bot conducts its orders with very little input.

A unique Futures grid trading automation is available on Binance platform. In this video I describe my experience and results from trading Futures contracts .
