With the new version of the BP cTrader app, comes an improved full-screen chart panel. A short tap enables quick access to major chart features and options, while a long tap provides for advanced customizing and a detailed view. Furthermore, Chart Period Favorites are now available for your convenience.

cTrader for Mobile Your traders can access their account from literally anywhere, thanks to the cTrader applications for iOS and Android. Both versions of the app use native Android and iOS design patterns, layouts and controls, which reduce the learning curve for new users by providing them with an already-familiar platform.

On the eToro trading platform, trades are made by dollar amount, rather than by unit of an asset. That means that you don't need to buy whole units of an asset; you can buy just a fraction of a cryptocurrency, starting from a minimum of \$10 per trade. Please note that there is a \$50 minimum for depositing funds.

A private key is like a password a string of letters and numbers that allows you to access and manage your crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an email address (meaning you can safely share it with others, allowing you to send or receive funds), and a private key, which is typically a string of letters and numbers (and which is not to be shared with anyone).

To manage your security key(s): In your Coinbase account, go to Settings > Security. Under the selected 2-step verification method, you'll be able to manage your security key which includes adding another security key. Please note, there is a maximum of 5 keys. By adding more than one security key, you enable a backup option in case you lose your primary security key
