Gas is measured in Gwei which is another word for a unit of about 0.000000001 ETH.

The Coinbase Wallet app is Coinbases user-controlled cryptocurrency wallet. With Coinbase.com, you can

buy crypto and Coinbase stores it (along with your private keys) for you; with Coinbase Wallet, you store your own crypto (safeguarded by a private key that only you know). To learn more, visit our website.

The wallet you get with a basic account is also a Coinbase wallet, even though it is not called that. That is de facto because you get a wallet with the basic account whether or not you ever get the app. If you don't get the app, then the only "Coinbase wallet" you have is the one on coinbase.com. This differentiation is bullshit.
