Margin Trading Definition: Online Trading with margin is the actual trading with borrowed capital. This borrowed capital is lent by the broker and it is available to the trader, who must deposit a margin. The trader can, therefore, trade more capital on the financial markets than he actually owns. Higher profits and losses are thus possible.

In margin trading, your trading account is extended credit to increase its trading value. When you trade on margin, each dollar in your account is worth more in a trade than it is at face value. This method creates the possibility for huge gains but also significant losses. Margin trading is best for experienced traders who have a clearly defined risk management policy.
