A simple example would be, if a trader wanted to invest \$100, they could buy 10 units of a stock that was priced at \$10 (10 units x \$10 = \$100). It is important to never risk too much capital on one trade. Position size should be set as a percentage of the total day trading budget (which might be anywhere from 2% to 10%, depending on the budget).

If you have tried day trading or watched somebody else day trade, you already know the concepts are simple, but being successful at day trading is like walking a tightrope. If you watch somebody doing it they make it look easy, but when you try it, it seems nearly impossible. This is the experience most new day traders will go through.
