API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

Log into your Coinbase Pro account. Choose API from the drop down menu (top right of the page). Click on + New API Key. Give the keys some permissions. We need view and trade permission. You also need to note or set the passphrase, as we need that later. Once you create the keys you will be shown the Key Secret. Make a note of this.

What Is Nikkei 225 Definition and . - [libertex.com](https://www.libertex.com)

An API Key can be considered as a username. This is generated by the exchange once you declare your settings. An API Secret or API Private Key is simply another string of characters that must be used in combination with the API Key to establish the connection. An additional security layer can be added by generating an API Passphrase. While the API Key and Secret are generated by the exchange, the Passphrase is commonly generated by the user.
