If we can get safemoon listed on robinhood then the price will really sky rocket. It can't cost much to list on robinhood, knowing that doge coin has been on there for awhile now. Thoughts? Edit I fully understand how robinhood works and that it's users don't get wallets or actually own the coin. But that's besides the fact, that if listed on robinhood then robinhood would have to buy in with hundreds of millions of dollars and then keep buying more to please their users as they get low.
