Orders placed via our ActiveTrader interface (each, an Order) are subject to the rates on this schedule. Gemini utilizes a maker-taker fee model for determining trading fees for all Orders. Liquidity-making Orders are charged different fees than liquidity-taking Orders. If you place an Order that is filled immediately, this Order takes liquidity from the marketplace and, therefore, you are considered a taker and will be charged a taker fee.

BitBay offers you the opportunity to buy or sell in USD, EUR or PLN. All you have to do is to send the money to the the given transfer number. Funds are being booked at least 3 times a day. Quick Transaction With the funds at your account you can immediately buy or sale the digital currency. Go to the "Exchange" tab and use the "Quick Transaction.

The Forex Margin Calculator can also be used to find the least "expensive" pairs to trade. For the same example above, and by using the same calculating parameters (30:1 leverage and a 0.10 lot trading position), if instead of selecting the EUR/USD we choose the AUD/USD, then we see that the margin required would be much less, only 186.89 GBP.
