Heres how you can lend your crypto. All set to start lending your crypto to add an extra stream of revenue and grow your assets? You can do that in multiple ways. But choosing the way that best fits your needs will make your life easier. Decentralized protocols such as Compound or Aave will lend your crypto for a set interest rate. Once there, you can transfer the crypto you want to lend and wait for it to generate interest for you.

2. Click on the graph to create your long/short position. The green shaded area represents your target (potential profit), whereas the red shows your stop-loss area (potential loss). At the center, you can see the risk/reward ratio.

Paper wallets. Paper wallets are the most secure method, though they may not be the most convenient. A paper wallet is a physical representation of ownership that is on an actual piece of paper. Your public and private key will be written on this piece of paper. You can scan the QR code to use the wallet.

Coinbase is a cryptocurrency platform for purchasing, selling, transferring, and storing digital assets and cryptocurrencies. It allows users to securely store a wide range of different digital assets in offline storage. Coinbase also allows users to buy, sell and trade digital assets.

Lend crypto to passively make money from assets that you're not currently using. As a lender, you can gain money through interest on your crypto - perfect for earning passive income on assets you're holding. You can also participate in lending economies as a borrower. This lets you take out a leverage position on your crypto holdings or gain short-term liquidity.
