Active management is bad and its getting worse. Every year, S&P Dow Jones Indices does a study on active versus passive management. Last year, they found that after 10 years, 85% of large-cap funds underperformed the S&P 500, and after 15 years, nearly 92 percent are trailing the index.

Under the rules, a pattern day trader must maintain minimum equity of \$25,000 on any day that the customer day trades. The required minimum equity must be in the account prior to any day-trading activities. If the account falls below the \$25,000 requirement, the pattern day trader will not be permitted to day trade until the account is restored to the \$25,000 minimum equity level.
