Sending crypto from Coinbase to KuCoin. Consumers may find a variety of information on how to transfer money from their exchange account to another wallet on another platform on Coinbases website, which is really beneficial. In spite of the fact that Coinbase gives a range of directions based on the device that a user is using, the instructions are mostly geared for sending funds via the internet.

I mostly use KuCoin to buy XRP coins and then transfer them back to my Coinbase pool. So, what I found out after many tries and wasting money on fees, that buying ADA on Coinbase and sending to KuCoin costs only \$0.18 and it takes about one-two hours (thats the most efficient way I have found so far).
