Crypto arbitrage is a type of trading practice that enables traders to profit from the inefficiency of the cryptocurrency market. However, these trades must be executed instantly to gain any profit; otherwise, the market may vary, and you may incur a loss. The majority of crypto exchanges are unregulated and independently owned and run.

The arbitrage strategy is popular because it allows buyers to gain without risking much of their investment in the process. Arbitrage traders make small gains that add up over time. The profits might seem small at first, but they can compound. You can participate in crypto arbitrage without putting your initial investment at risk.
