For starters, when we buy a stock on eToro, we don't buy it on the market directly. In fact, we buy a share which in reality belongs to eToro. They are the shareholders of the company, not us. This is why it is impossible to transfer our shares to another deposit account, because we are not really the owner of our shares. They belong to eToro.

A node is simply a computer that connects to a cryptocurrencies blockchain network. It can be used to process transactions, store data about those transactions, and keep track of other nodes on the network. Nodes are essential to supporting the cryptocurrency network, and without them, the system would not be able to function.
