A dollar doesn't buy nearly as much as it once did, as the cliché goes. Since the early 20th century, the decline in the value of a dollar has been dramatic due to inflation. A dollar in 1913 had the same buying power as \$26 in 2020. Three separate factors all can create inflation: 1. Increased demand for products and services.

Introduction of the US Dollar In 1785, the Dollar was officially adopted as the money unit of the United States. The Coinage Act of 1792 created the first U.S. Mint and established the federal monetary system, as well as set denominations for coins specified by their value in gold, silver, and copper.
