A private key is like a password a string of letters and numbers that allows you to access and manage your crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an email address (meaning you can safely share it with others, allowing you to send or receive funds), and a private key, which is typically a string of letters and numbers (and which is not to be shared with anyone).

API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

There is no such thing as a best Bitcoin broker per-say, as no-two platforms are the same. For example, while one broker might offer super-tight spreads and low commissions, it might not support your preferred payment method.

Dollar cost averaging (DCA) is an investment strategy where a person invests a set amount of money over

given time intervals, such as after every paycheck. Investors choose this investment strategy when long term growth of an asset is foreseen, but a removal of short term volatility is desired. Take The Work Out Of Investing.
