Join our Crypto Telegram channel. Coinbase has officially launched its Margin Trading service on the exchange's professional trading platform, Coinbase Pro. Eligible traders can now trade up to 3X leveraged orders on USD-quoted books, which allows users to amplify their trading results through borrowing money. Coinbase's COO Emilie Choi told The Block in May that margin trading was on the way, but didn't reveal the exact leverage the service would feature.

If we can get safemoon listed on robinhood then the price will really sky rocket. It can't cost much to list on robinhood, knowing that doge coin has been on there for awhile now. Thoughts? Edit I fully understand how robinhood works and that it's users don't get wallets or actually own the coin. But that's besides the fact, that if listed on robinhood. then robinhood would have to buy in with hundreds of millions of dollars. and then keep buying more to please their users as they get low.

SafeMoon on Robinhood!? : SafeMoon - reddit

With hundreds of tweets endorsing SafeMoon and pushing for the coin to hit the 1-cent milestone, it is clear the crypto has a serious backing. The coin is up 2,000% since its initial listing.
