Appearance: This pattern is made up of two candlesticks. The first one is bullish (green) while the second is red and engulfs the other. In other words, the second candle's body is bigger than the first one. With gaps between closing and opening prices rarely seen in the crypto, this pattern occurs at the top of an uptrend.

With candlesticks, you can get clues and insights from the price action as well as the general mood of the market for that asset. As time progresses, multiple candlesticks create larger patterns that crypto traders derive signals from to make vital trading decisions. At first, candlesticks may be a little difficult to understand.

Being able to read a candlestick chart is one of the most valuable skills you can have as a trader. Candlestick patterns are widely used to represent trading prices in the crypto market. Whether youre taking a long-term investing approach or day trading, knowing how to read candlestick charts is essential.

Candlestick charts are a major part of reading crypto charts. Every candle has a main body in either of the colors. You can also see single lines protruding from above and below the main body, called shadows. The body shows the opening and closing prices, and the shadows depict how high or low these starting and closing

prices have risen or fallen.
