Orion Protocol is, just like all other cryptocurrencies, a risky investment. It does have higher probability of going up than down because of the good use case, well-designed tokenomics, active community and a solid team behind it. How much will Orion Protocol be worth? For the short-term future, it could reach \$6.01.

Many people compare HitBTC to Binance since both exchanges are crypto only and are relatively lenient regarding the coins they list and who they accept as a customer. When you compare both exchanges, it seems that Binance has lower fees (0.1% flat) and a better reputation, while HitBTC has a better user interface and a wider selection of features.

If you have tried day trading or watched somebody else day trade, you already know the concepts are simple, but being successful at day trading is like walking a tightrope. If you watch somebody doing it they make it look easy, but when you try it, it seems nearly impossible. This is the experience most new day traders will go through.
