The good thing about crypto trading is that you are not required to maintain a required minimum amount of deposit in your wallet. The transaction fee, more often than not, is deducted as a percentage of the amount of your initial capital. This is why you do not have to be bothered by the investment money required in crypto trading.

KYC is an extremely vague term, and there is no list which exhaustively details all possible ways to carry this out. This is no different when investigating whether or not it is possible to buy crypto without KYC. As a result, most reputable organisations implement industry best-practices and processes developed internally.
