Can a green cryptocurrency fix our toxic relationship with .

In late 2017, we decided to start a crypto-currency exchange. To give people a smooth entry into the world of crypto, we gave importance to ease of use, security, and customer support right from the beginning. Bitbns went live on December 14, 2017. In just a few months, our focus proved right.

Though I never done traditional trading, but after using Bitbns, it brought me confidence using Bitbns's stop limit, and margin trading features. Though I'm a mobile guy, I use Bitbns app on the go. However, I found this chrome extension for Bitbns is really smart, and especially if I'm desktop. You guys made crypto really proud.

With OpenSea growing at such a rapid rate it captured more than 60% (\$14 billion) of the total NFT market in 2021, an increase of over 600 times from 2020's \$21 million it is hoped that it will improve its IP rights protection mechanism going forward.
