API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

Find my API key and Secret on my Coinbase Pro account .

An API Key can be considered as a username. This is generated by the exchange once you declare your settings. An API Secret or API Private Key is simply another string of characters that must be used in combination with the API Key to establish the connection. An additional security layer can be added by generating an API Passphrase. While the API Key and Secret are generated by the exchange, the Passphrase is commonly generated by the user.

If it is a bank wire it shouldn't take several days but rather just 1 business day. I think you meant to say a bank ACH transfer which would take 3-5 business days. No there is not a way around it if you are doing ACH transfers. People don't understand that the hold of 3-5 days is to prevent fraud since crypto is not reversible.
