Sir, I know how to use the Trezor wallet, and I assure I have not used a pass phrase account or mistakenly send the funds to an address generated from the pass phrase part of my account. The total recvd bitcoin amount is correct, but my balance does not reflect the funds.

Horribly, I found my wallet was still 0 when I updated firmware. It is clear, one transition happened at 7:54pm on 9/09/2018, while I was in abroad. on that transition, all my bitcoin has been sent to one address. I googled that address, within one hour, there were another transitions from it, all my bitcoin has gone to different addresses.
