Futures trading refers to a method of speculating on the price of assets, including cryptocurrencies, without actually owning them. Like commodity or stock futures, cryptocurrency futures enable traders to bet on a digital currency's future price. Needless to say, Bitcoin futures are currently the most popular type of crypto futures contracts.

As the dip continues and fear gets the better of you, it's important to find an exchange you trust. Platforms don't always serve the best interest of the customer. Rather than being a neutral party to transactions, like a stock exchange, a crypto platform can trade against customers, meaning clients are at risk of being treated unfairly.
