Normally, US markets are open from 9:30am ET until 4pm during normal business days, except on certain holidays. However, different assets have different opening and closing times. For example, cryptocurrencies are traded 24 hours a day, 7 days a week. Currently, in the United States, you may only place and execute market orders on US stocks and ETFs during market trading hours.

The crypto bot can accomplish this by either: 1. Sending trade signals to the user 2. Executing buy or sell orders automatically. In the first instance, users would be notified the moment certain market conditions are met, at which time they could execute a trade manually. This might be a simpler version of a bitcoin trading bot.
