Coinbase, the company behind the cryptocurrency trading platform of the same name, is going public via direct listing. It filed S-1 paperwork on Thursday with the Securities and Exchange Commission, and that paperwork contained a variety of details about the company that were previously unknown.

As many of you know, Coinbase now offers users the option to earn a tidy sum of crypto by completing lessons and quizzes relating to new coins they have featured on the site such as XLM, BAT and EOS. You've probably seen plenty of threads posted on this very subject, often asking you to follow referral links.
